

The Project "**CARE - Cultural Action for Refugees in Europe**" aims to counter messages of intolerance towards immigrants through **intercultural dialogue and mutual understanding**. The "CARE" project strengthens European citizenship through the participation of small communities and intends to build an European **network of small communities**. In this sense, CARE will represent a unique platform for small communities wishing to deal with the issue of welcoming refugees through the support of European Institutions, also giving to **citizens** the chance to get access to all the information they need to fully understand the process of receiving refugees.

Cofinanciado pelo Programa «Europa para os Cidadãos» da União Europeia
